Re: Four Winds International Corporation
Recall Campaign No.: 04V-139

Dear Ms. Wallace:

Enclosed please find the Vehicle Safety Recall Quarterly Report Information sheet for the first quarter of 2005 for the above-referenced recall campaign involving certain 2003 Hurricane, Windsport, and Infinity Class A motorhomes with a slide out option that contain a 20/15 amp breaker rather than the required 15/15 amp breaker. This quarterly report is being filed in accordance with 49 CFR Part 573.6 and constitutes the fourth of six consecutive quarterly reports to be filed with respect to this recall campaign.

You will note that the last quarterly report filed on January 28, 2005 evidenced that a total of 281 vehicles were inspected and remedied as of the end of the fourth quarter of 2004. However, Four Winds has determined through an internal audit of this recall campaign that the figure on the quarterly report for the fourth quarter of 2004 was incorrect. The current quarterly report evidencing that a total of 268 vehicles were inspected and remedied is correct.

The enclosed quarterly report should contain all of the information required by NHTSA with respect to this recall campaign. If you should need any additional information or have any
