**Inspect Driver's Side Seat Frame and Replace If
Required**

Blinder - Camp., Lit., Train., Warr.

Attention: Sales Manager/ Service Manager/ Parts Manager/ Service Technician**Information:** This is to inform you of a voluntary Customer Recall Campaign involving a certain range of model year 2003 and 2004 Cayenne S and Cayenne Turbo vehicles.

Porsche AG, the manufacturer, has decided that a defect relating to motor vehicle safety exists in certain Cayenne vehicles. The affected vehicles were fitted with driver's side seat frames on which the welding does not meet Porsche's strength standard.

The inadequate welds could lead to the seat frame breaking when subjected to the shock of an accident or similar event.

To remedy the situation and avoid such danger, the seat frame must be inspected and if necessary replaced. Depending on your findings, a new seat frame must be fitted for the left front driver's seat in the vehicle.

Please note Federal Regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten (10) days.

A total of 4,144 U.S. and 289 Canadian vehicles fall within the scope of this customer recall campaign.

Note: The listed vehicles may also be affected by recall campaigns A304 and A311. Please perform the required work during one workshop visit by this Porsche Cayenne Owner.

Very Important! Not every vehicle in the below range listing may be affected. Use the VIN-range below as a general guideline when determining for an open recall status.

Alternatively, the VIN can be checked in the Porsche e-dcs/WWS for confirmation of an open campaign (or service action). Also, the VIN can be checked via the VRU (Voice Response System) for any open listing.

The affected Vehicle Identification Numbers are contained in the following VIN-Ranges:
