### Passenger Air Bag Door – Trim Rough Edges Of Opening – Recall R719

MODEL 2004 MY  
XJ range

VIN Refer to VIN list

#### Issue:

A concern has been identified on a small number of 2004 MY XJ vehicles within the above VIN range. A poor cutting process during the manufacture of the air bag instrument panel opening may have resulted in a rough finish of the passenger air bag instrument panel opening edge. If the passenger air bag were to deploy there is a possibility that the air bag could be torn.

**Only those vehicles listed in this bulletin by VIN need to be inspected and, if necessary, reworked.**

Jaguar will be contacting customers with a letter which is included in this bulletin for reference.

#### Action:

Refer to the VIN list included in this bulletin to determine which vehicles are affected by this Recall.

Inspect the passenger air bag opening and, if necessary, remove any sharp serrated edges.

All unsold vehicles or vehicles that have not been handed over to the customer must be inspected and, if necessary, repaired prior to sale or onward distribution.

**What should you do?**

**At your earliest convenience you should contact your authorized Jaguar Dealer who will be able to make an appointment to undertake the necessary actions. To assist your Dealer please ensure that at the time of contact you have at available your applicable Vehicle Identification Number.**
