Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. ("Jayco" or the "Company") is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.5(c)(2)

Affected vehicles are Model Year 2004 Jayco Greyhawk, Motor Homes manufactured between March 1, 2004 and April 2, 2004.

The recall population was determined from the manufacturing records for the Company's manufacturing plant in Middlebury, Indiana, which produced the affected motor homes.

573.5(c)(3)

A total of thirty-two (32) motor homes are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

2004 Motor Homes with a starting VIN of 1FDXE45S94HA49377 and ending with 1FDXE45S84HA54652.

573.5(c)(4)

Jayco is recalling 100 percent of the motor homes identified in the scope.

573.5(c)(5)

Jayco has identified that the 120-volt shore power cord was wired without a circuit protection device.

573.5(c)(6)

Jayco decided to conduct this recall following an internal investigation. Jayco is not aware of any fires, injuries or accidents related to this issue.

573.5(c)(8)

The remedy for the affected motor homes will involve inspection, and rewiring of the 120-volt shore power cord to provide circuit protection.

Due to the low number of units affected Jayco requests approval to contact each affected retail customer by phone and letter. Jayco will follow up with instructions to the dealer making the repairs. Our follow up letter and instructions will be provided to the agency within 10 business days from approval.

Thank you for your assistance.

Sincerely,

David C. VanderMolen
