## II. Identify the Recall Population

3. Furnish the total number of vehicles recalled potentially containing the defect or noncompliance.

<u>Model (Make)</u>	<u>Year</u>	<u>Number of Vehicles Potentially Involved</u>
Allegro Bay	2005	320
Allegro Bus	2005	232
Phaeton	2005	288
Zephyr	2005	27

Total Number Potentially Affected by the Recall: 867

4. Furnish the approximate percentage of the total number of vehicles estimated to actually contain the defect or noncompliance: Maybe 1/2

Identify and describe how the recall population was determined--in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled vehicles:

It began with our 2005 models that floor plans with the washer/dryer in the rear of the motorhome. The cubby it fits into was made larger. Therefore, the potential for movement of the washer/dryer. We started with the first dates of manufacture until we started making the kit standard in our production line.

### III. Describe the Defect or Noncompliance

5. Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.

The cubby the <sup>optional</sup> washer/dryer fit into was made larger in the 2005 models in certain floorplans, allowing for potential movement.

Describe the cause(s) of the defect or noncompliance condition.

Cause - the cubby was made larger to enable repairs to be made in the event they were needed. But as a result the washer/dryer can move.

Describe the consequence(s) of the defect or noncompliance condition.

The washer/dryer can slide out.

Identify any warning which can (a) precede or (b) occur.

If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.

N/A

Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:

**IV. Provide the Chronology in Determining the Defect/Noncompliance**

*If the recall is for a defect, complete item 6, otherwise item 7.*

6. With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.

7. With respect to a noncompliance, identify and provide the test results or other data (in chronological order and including dates) on which the noncompliance was determined.

---

---

---

---

---

**V. Identify the Remedy**

8. Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.

See attached instruction sheet ~ letter that has already been sent to the customers along with a kit to repair problem. Also, we contacted all customers with the floorplans involved whether they purchased the washer/dryer or not.

Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly.

---

---

---

Identify and describe how and when the recall condition was corrected in production. If the production remedy was identical to the recall remedy in the field, so state. If the product was discontinued, so state.

The recall condition was corrected on our production schedule dated 12-14-04. They started installing the covered block of wood that stops potential movement of washer/dryer. However the units started on production schedule did not get to the area of the production line to be repaired until January 2005.

#### VI. Identify the Recall Schedule

Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.

We have already contacted the customers involved & sent them the kit to correct the problem. However it was sent out as a service bulletin. We now realize it should be a recall.

#### VII. Furnish Recall Communications

9. Furnish a final copy of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser. This includes all communications (including both original and follow-up) concerning this recall from the time your company determines the defect or noncompliance condition on, not just the initial notification. *A DRAFT copy of the notification documents should be submitted to this office by Fax (202-366-7882) for review prior to mailing.*

Note that these documents are to be submitted separately from those provided in accordance with Part 573.8 requirements.

## Service Bulletin for Potential Movement of Washer/Dryer Update 3-22-05

3-22-05

To: Tiffin Motorhomes Zephyr Customers/Dealers

It has come to our attention that the piece we sent out to prevent movement of the washer/dryer is not long enough for the Zephyr units. Therefore, I am sending you a longer piece to have installed. Please take your unit to one of our dealers or a servicing center of your choice to be repaired. We will allow a quarter of an hour labor to remove the old piece and replace it with the new piece. To receive payment, please fill out the form at the bottom of the page and return it to Tiffin Motorhomes. If you are a Tiffin dealer, fill out the form and attach it to our warranty claim and send it in. If you have any questions please call Liz at 256-356-0205. We are sorry for the inconvenience of having this repair done twice.

Thank you,
