Dear Pat

This letter is written to notify the NHTSA that Fleetwood Enterprises, Inc., is aware of the voluntary initiation of a Recall Notification Campaign affecting Fleetwood produced recreational vehicles as listed below

<u>Motor Homes</u>	<u>Model Year</u>
American Eagle	2003 - 2005
American Tradition	2003 - 2005
American Dream	2003 - 2005
American Heritage	2003 - 2005

These recreational vehicles were manufactured from 12/1/02 through 4/1/04.

This voluntary recall campaign is being conducted by Vehicle Systems, Inc., 15549 East Highway 52, Fort Lupton, CO 80621 Phone: 303-659-8221. Contact Dean Jackson - Warranty Manager

This voluntary recall campaign involves approximately 186 US and Canadian (breakdown is not available yet) Fleetwood purchased Aqua-Hot, Hydro-Hot (equipped with the Webasto DBW 2010 Diesel-Burner), along with Webasto DBW 2010 Coolant Heaters

The reason for this recall is the Diesel-burner is equipped with a combustion chamber (generic name - "burner tube") that may be made out of material that is not within specification and in those cases could fail prematurely. If such failure occurs, the surface temperature of the exhaust tube exiting from the heater can increase and could potentially ignite combustible materials in or around the vehicle which could cause personal injury.

To assist Vehicle Systems Inc., in conducting this recall campaign, Fleetwood has provided dealer and owner of record information.

Fleetwood has no reason to disagree with this action or the recall remedy. Fleetwood is relying Vehicle Systems, Inc., and the NHTSA to monitor campaign performance.

Sincerely,

Robert E. Wozniak
Director of Engineering and Product Compliance
Recreational Vehicle Group

cc: Dean Jackson - Warranty Manager, Vehicle Systems Inc.
