March 29, 2005

Dear Dealer:

We are contacting you regarding the Battery Wire Recall 05V-008 on 2005 Jayco Granite Ridge, Greyhawk, Escapade, and Starcraft Ambient motorhomes.

We have been receiving a large number of claims for units that had the recall performed. However, many of the claims show the recall kit was not ordered or used for performing the repair. This is a Federally Mandated Recall and the parts kit is essential because the kit includes specific parts required and approved to complete the repair. If you choose not to use the specified repair kit, this will result in the repair claim being denied.

All claims that come in to our claims department that do not indicate the recall kit was used for the repair are going to be denied. The repair will have to be redone using the recall kit. The part number for the recall kit is **0502171**. The order form was included in the recall packet. If you do not have the order form, please contact our Technical Research department at 1-800-283-8267.

We apologize for any inconvenience this may cause.

Sincerely,

Jayco Technical Research
