**Installation of four (4) red and two (2) amber reflectors on the trailer's frame**

**February 2005**

**ATTENTION RANGER DEALERS:**

Ranger Boats, in cooperation with the Federal Motor Vehicle Safety Standards, is conducting a voluntary campaign to install four (4) red and two (2) amber reflectors on the trailer's frame.

Ranger recently discovered that the stop/tail lights and front/rear side marker lights installed on trailers did not contain the reflex lens or reflective materials.

Trailers shipped to you are identified on the enclosed list. On trailers that have been warranty registered, customers are being notified, via regular U.S. mail, of this voluntary campaign, and have been instructed how to install the reflectors.

Some owners may choose to have a Ranger dealer perform the work. If so, installation of these reflectors will be performed at no cost to the trailer owner. Ranger will reimburse you at your current labor rate for work performed under this campaign. The customer must sign a verification form prior to submittal to Ranger.

We appreciate your cooperation.
