DEFENSE INVESTIGATION

# Safety Recall ALERT

**Date:** November 22, 2005 **Number:** SRA 05-02  
**To:** All U.S. and Canadian Distributors  
**Attention:** Service Manager, Warranty Manager, Parts Manager, Dealer Principal  
**From:** Regulatory Affairs Department  
**Subject:** Safety Recall, RVXX0506, Front Axle Suspension Wobble

**Safety Recall Summary:**

There exists the potential that the vehicles in the suspect population may develop a front wheel wobble when the tires become worn. If the wobble persists and is left untreated, damage may occur which could impair vehicle control.

The number of vehicles that may be affected is approximately 1,465 (1376 US; 89 Canada).

**Dealer's Responsibility:**

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act requires dealers to insure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer. All Safety Recalls, which affect new or used inventory, must be performed before the vehicle is sold or leased.

Additionally, Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer. **Note: In this case, the vehicles that are in the dealers inventory can be released if the vehicle does not exhibit the condition (front wheel wobble). Furthermore, only the vehicles that exhibit the condition will require the recall repair.**

**Release Schedule:**

- Repair Instructions are tentatively scheduled for release no later than December 16, 2005 as the parts become available.
- Vehicle list is posted on the Truck Dealer Portal.
- Owner Notices are scheduled to be mailed on January 3, 2006.

**Questions:**

Contact the Regulatory Affairs Department at [vtna.regulatoryaffairs@volvo.com](mailto:vtna.regulatoryaffairs@volvo.com) if you have questions.
