Safety Recall Notification

To: All Jayco Dealers

Subject: Notification of Recall

Jayco Inc., in cooperation with the National Highway and Traffic Safety Administration, is announcing a recall on certain 2005 – 2006 Jayco Jay Feather travel trailers. Jayco has determined that some of these travel trailers spare tire carrier bolt may break while traveling down the road. The 2005 – 2006 Jayco Jay Feather travel trailers being recalled are Jayco models 25K (JK) with a starting VIN of 1UJBJ02NX51JK0050 and ending with 1UJBJ02N661JK0080.

Jayco has become aware that certain 2005 – 2006 Jayco Jay Feather travel trailers with this condition, if not addressed, could result in accident, injury or death.

Jayco's Technical Research Department is working on the final repair instructions and they should be available within the next 10 working days. No repairs are to be made until Jayco releases the final repair instructions.

If you have one of these models in your inventory, NHTSA Federal Guidelines state: *"A dealer is prohibited from selling to the public any new motor vehicle or item of motor vehicle equipment, which might contain a safety, related defect, until the defect is remedied."*

Thank you for your assistance.

Sincerely,

Jayco, Inc.
Technical Research Committee
