Subject: Renotificaion for safety recall 05V081000 per NHTSA's request
Attachments: 05V081000 2nd Notice Owner Letter 1-11-07.doc

George,

I have attached a copy of the owner letter for 2nd Notification that NHTSA is requiring us to perform on R04064 (Recall Campaign 05V081000 for the Workhorse Battery Cables).

I will provide answer to the guidelines that NHTSA requested at the bottom of the letter. We contacted RL Polk to get updated owner list based on current state motor vehicle registration records. The renotification letter is attached and meets the requirements of 49 CFR Part 577.10. I have already added this recall to my quarterly reports for this next quarter as 2nd notice, 1st report of 3. As far as furnishing a proposed schedule for conducting the owner renotification; we sent the VIN to RL Polk on 12/27/06 and received the revised owner list from RL Polk on 12/28/06. The approximate date we will begin and complete owner renotification will be 1/26/07 if you approve the letter.

Thank you,
