Re: Safety Recall- Air Brake Line Reversed

Dear Owner:

This notice is sent to you in accordance with the requirement of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that certain Class A Motorhomes described below fail to conform to Federal Motor Vehicle Safety Standard No. 121 – Air Brake Systems. The motorhomes were manufactured from July 21, 2003 through July 27, 2005.

Specific affected units are: Monaco Cayman, Holiday Rambler Neptune, and Safari Cheetah. The production serial ranges by model year are as follows:

2006) Monaco Cayman 709193-709998
2006) Holiday Rambler Neptune 709856-709992
2004) Safari Cheetah 705079-706202
2005) Safari Cheetah 706054-709541
2006) Safari Cheetah 709179-709985

According to our information, your Class A Motorhome identified on the enclosed form is affected. Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

During the pre-inspection certification test it was concluded that certain motorhomes air brake systems were operating incorrectly. It was determined that two delivery lines on the brake pedal/treadle valve assembly and two lines on the inversion valve were installed on the wrong ports and need to be re-plumbed. The Company believes that any risk to motor vehicle safety is remote because the incorrect delivery line installation will not lead to a brake system underperformance or failure unless an unrelated defect also causes one of the air tanks to lose pressure.

The remedy will involve switching the port hook-ups of the two delivery lines on the brake pedal/treadle valve assembly and switching the port hook-ups of two lines on the inversion valve.

The recall repair will be performed at no cost to you. If you paid to have this repair completed prior to receiving this letter, you may be eligible for a reimbursement of a portion or all of your remedy cost.

The labor time necessary to perform this recall campaign is approximately .75 hour. Please ask your dealer if you wish to know how much additional time may be needed to schedule and process your motorhome.

The enclosed form identifies your motorhome and will serve as an authorization and claim form to have the correction made. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you have sold or traded your motorhome, or for any reason cannot have this recall service performed, please let us know by completing the postage paid reply card and returning it to us promptly.

Your Monaco Coach Corporation dealer is best equipped to provide service to ensure your motorhome is corrected as promptly as possible. If, however, you take your motorhome to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call our toll free number of (800) 685-6545.

If, after contacting your dealer, and the recall assistance service line, you believe Monaco Coach Corporation has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW, Washington, DC 20590 or call the toll free Auto Safety Hotline at (888) 327-4236.; (TTY : 1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you, but your safety is very important to us.

Sincerely,

Michael Becker
