Dear Coachmen Owner:

RE: Safety Recall 05V-294/Intellitec

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Coachmen RV Company and Intellitec have decided that a defect that relates to motor vehicle safety exists in 2006 Sportscoach Elite, Sportscoach Encore and Cross Country motorhomes manufactured between April 12, 2005 and June 6, 2005.

SAFETY DEFECT

Coachmen purchases 50 amp transfer switches from Intellitec and installs them in our rear diesel line of motorhomes. Coachmen has learned that between April 4, 2005 and May 29, 2005 Intellitec substituted the material used for the wire lugs in their transfer switches, changing from nickel plated to copper lugs. The copper lugs are softer than the nickel plated and do not retain the torque of the screw that clamps the wire connector. When the torque is relaxed, the lugs can become loose resulting in excessive heat within the connected wire that could result in a fire.
