Safety Recall: Front Airbag Impact Sensors

Dear Odyssey Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

What is the reason for this notice?

Honda Motor Co., Ltd. has decided that a defect related to motor vehicle safety exists in certain 2005 Odysseys. The front airbag system has two external front impact sensors. Some sensors were insufficiently sealed during manufacturing. If water enters a sensor, corrosion can occur. Corroded sensors could short-circuit internally. If one or both sensors fail, the SRS indicator on your instrument panel will stay on. Front impact sensor failure could cause a delay in, or loss of, front airbag deployment, which can increase the risk of injury in a frontal crash.

What should you do?

Call any authorized Honda dealer, and make an appointment to have your vehicle repaired. The dealer will replace the two front impact sensors on your vehicle, *free of charge*. Please plan to leave your vehicle for half a day to allow the dealer flexibility in scheduling.

Who to contact if you experience problems.
