Subject: Freightliner M2 and FCCC B2 Fan Shrouds

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. It is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Freightliner LLC, on behalf of its Freightliner Trucks Division and its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on specific Freightliner Business Class M2 and Freightliner Custom Chassis B2 school bus chassis manufactured between July 26, 2004, and October 29, 2004.

The clearance between the engine fan and shroud could be less than the movement between the fan and shroud, which could cause the fan shroud to be drawn back into the fan at high engine speeds when the fan clutch engages. Heavy contact between the fan and the shroud may cause the fan blade to fracture, resulting in possible vehicle damage or personal injury without prior warning.

The engine fan will be replaced with a fan that has a different mounting offset.

Repair kits are now available for authorized dealers to order. Contact your authorized dealer to arrange to have your vehicle(s) modified and to assure that parts are available at the dealer.

When you contact your dealer, refer to campaign number **FL458A**. Once kit(s) are received at the dealership, the modification will take approximately one and one-half hours and will be performed at no charge to you.

IMPORTANT: When the recall has been completed, please ensure that a label has been affixed to your vehicle referencing **FL458A**.
