Safety Recall 05S36

Mr. John Sample
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number: 12345678901234567

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in certain 2005 model year Ford F-650 and F-750 vehicles equipped with hydraulic brakes.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with Ford dealers, is to provide you with the highest level of service and support.

What is the issue?

On your vehicle, it may be possible for the driveline parking brake anchor bolt to fracture. If the anchor bolt fractures, the parking brake may not function when set and there may be no indication of the malfunction to the vehicle operator. As a result, this condition may allow the vehicle to move without warning, potentially resulting in a crash.

What will Ford and your dealer do?

Ford Motor Company and your dealer will replace the driveline parking brake anchor bolt free of charge (parts and labor). We urge you to return to your dealer for this service.

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What are we asking you to do?

Please call your dealer without delay and request a service date for Recall 05S36. Provide the dealer with the Vehicle Identification Number (VIN) of your vehicle. The VIN is printed near your name at the beginning of this letter.
