Campaign No.: 05V-455

Dear Isuzu Ascender Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

WHAT IS THE CONDITION

The manufacturer General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2006 Ascender vehicles. Some of these vehicles may have been built with a power steering hose that is not to specification. Under extreme steering maneuvers, such as turning the steering wheel fully to the left or right while braking, the hose may fracture and leak fluid. If this were to occur, power steering assist would be lost and increased steering effort would be required. If the power steering fluid were to spray onto hot engine parts, an engine compartment fire could occur.

WHAT WE WILL DO

To correct this condition, your Isuzu dealer will inspect the power steering hose for two suspect date codes and replace it if required. This service will be performed for you at **no charge**.

WHAT YOU SHOULD DO

To limit any possible inconvenience, we recommend that you contact your Isuzu dealer as soon as possible to schedule an appointment to bring your vehicle in to have this work performed. Present this Owner Notification Letter at the time of your appointment or refer to Campaign Service Bulletin SB05-10-S003. Isuzu estimates that the repair will take approximately 15 minutes to 2 ½ hours to perform. However, additional time may be necessary depending on how appointment are scheduled and processed at your dealership. To locate the nearest Isuzu dealer you can visit our website at www.isuzu.com and click on the dealer locator icon and enter your zip code or state. Should you not have access to a computer terminal please contact our National Owner Relations Department at the number listed below.

If you have any problems obtaining the needed repair or believe that this repair has not been or cannot be made within a reasonable time, you may contact:
