

November 2005

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Reason For This Recall: General Motors has decided that certain 2006 Chevrolet Malibu vehicles fail to conform to Federal Motor Vehicle Safety Standard 110, Tire Selection and Wheels. These vehicles have a Tire and Loading Information Label that incorrectly lists a 15" spare tire and wheel assembly. These vehicles are equipped with a 16" spare tire. A 15" spare tire cannot be installed on the front of the vehicle because of interference with the brakes.

What Will Be Done: A new label will be installed over the existing label. Since the new label can be easily installed, and to reduce your inconvenience, the label and installation instructions are being sent with this letter. If you desire, however, you may take the label to your dealer for installation. This service will be performed for you at **no charge until January 31, 2006**.

How Long Will The Repair Take? It is likely that your dealer will need your vehicle longer than the actual installation time of approximately 15 minutes because of service scheduling requirements.

Contacting Your Dealer: If you would like the label installed for you, we recommend that you contact your dealer as soon as possible to schedule an appointment for this installation. Remember to bring the enclosed label with you at the time of your appointment. Should your dealer be unable to schedule a service date within a reasonable time, you should contact the appropriate Customer Assistance Center at the listed number below. The Customer Assistance Center's hours of operation are from 8:00 AM to 11:00 PM, EST, Monday through Friday.
