**Safety Recall: Loose Front Airbag Impact Sensor**

Dear TL Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**What is the reason for this notice?**

Honda Motor Co., Ltd. has decided that a defect related to motor vehicle safety exists in certain 2006 TLs. The bolts on the right front impact sensor were not properly torqued. If the bolts loosen or fall out, the sensor may fail to properly detect a crash, possibly resulting in delayed or non-deployment of the passenger's airbag.

**What should you do?**

Call any authorized Acura dealer, and make an appointment to have your vehicle repaired. The dealer will properly tighten the bolts on the right front impact sensor, *free of charge*. Please plan to leave your vehicle for half a day to allow the dealer flexibility in scheduling.

**Who to contact if you experience problems.**

If you are not satisfied with the service you receive from your Acura dealer, you may write to:

American Honda Motor Co., Inc.  
Acura Client Services  
Mail Stop 500-2N-7E  
1919 Torrance Blvd.  
Torrance, CA 90501-2746

If you believe that American Honda or the dealer has failed or is unable to remedy the defect in your vehicle, without charge, within a reasonable period of time (60 days from the date you first contact the dealer for a repair appointment), you may submit a complaint to:

Administrator  
National Highway Traffic Safety Administration  
400 Seventh Street, SW  
Washington, DC 20590
