Safety Recall 05S37

Mr. John Sample
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number: 12345678901234567

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect that relates to motor vehicle safety exists in certain 2005 model year Ford Five Hundred, Mercury Montego, and Ford Freestyle vehicles.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with Ford and Lincoln Mercury dealers, is to provide you with the highest level of service and support.

What is the issue?

The straps that secure the fuel tank to the vehicle body may break, causing the fuel tank and fuel tank heat shield to drop on the driveshaft (all wheel drive vehicles) or exhaust system (front wheel drive vehicles). If this happens, drivers may notice a noise or a fuel leak. A fuel leak in the presence of an ignition source may result in a fire.

What will Ford and your dealer do?

Ford Motor Company and your dealer will replace both fuel tank straps free of charge (parts and labor). We urge you to return to your dealer for this service.

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What are we asking you to do?

Please call your dealer without delay and request a service date for Recall 05S37. Provide the dealer with the Vehicle Identification Number (VIN) of your vehicle. The VIN is printed near your name at the beginning of this letter.
