Subject: RE: MACK TRUCKS/ASET FUEL INLET HOSE ASSEMBLY - MACK TRUCKS RECALL NO. SC0292, NHTSA RECALL NO. 05V-015

Importance: High

Hello Delia,

The following corrections are needed to the information below:

- The Model Years are 2003 through 2005.
- The Fuel System type is Diesel.
- Potential number of vehicles affected is 15,685 (We addressed all the vehicles in our possession which decreased the 16,455 to 15,685)
- We plan to send the Dealer letters on Feb. 7th with the Owner letters will be mailed out 10 working days later (Feb. 21st). So the Recall is expected to begin late February (not mid-March).

Pat has already gave me approval for the owner letter and Dealer Bulletin. I will send a final copy of all mailings to you. Please let me know that you received this information and made the appropriate corrections in your documentation.

Best Regards, Tim
