Subject: Recall 05V223000 Vehicle Systems Burner Tube Recall

Pat,

I am forwarding you the repair instructions and dealer letter that we wrote for recall 05V223000. Vehicle Systems sent you the owner and dealer letters and repair instructions previously (about March 2005) and were conducting and reporting the recall. They have asked us to handle this now as they don't have the manpower. Thus I will be conducting and reporting the recall from now on. Our plan is to fax our dealer letter and repair instructions to our dealers and send no further owner notifications as Vehicle Systems did this in April 2005. I would like to verify this is all ok with you. I have included a copy of the owner letter that Vehicle Systems mailed to owners.

Thank you,

Michael Atkinson
