

Aprilia USA Reissues Recalls on RST Futura, ETV Caponord and RSV

NEW YORK –August 21, 2008 –Aprilia USA today announced the re-issuance of two recalls originally issued in 2006.

The recall designated 05V-506 affects the 2001 through 2004 model year RST Futura and the 2002 through 2003 model year ETV 1000 Caponord models. Aprilia dealers will check and replace the male quick disconnect fuel fitting as the original fitting may crack or break as a result of lifting or removing the fuel tank.

The recall designated 05V-538 covers the 2004 and 2005 model years RSV model. Aprilia dealers will replace the rear swing arm due to the possibility of cracking.

Aprilia USA will contact current owners of these model and model year motorcycles that have not yet been updated. With this notification, owners are urged to schedule appointments with their local Aprilia dealer for the work required to complete the applicable recall.

As these recalls were originally issued in 2005/2006, many of the motorcycles affected by these recalls have already been updated. Customers who do not receive a consumer notification letter regarding these recalls, but still have questions should contact their local authorized Aprilia Motorcycle Dealer or call Aprilia USA Customer Care at (212) 380 4433.
