LETTER DATED

SAFETY RECALL NOTICE

«AddressBlock»

Owner Acknowledgment that Lotus Recall Notification 2006/1R (NHTSA recall # 05V-571) Has Not Been Performed on Vehicle VIN «VINI7»

Dear «GreetingLine»

A Safety Recall Notice was recently sent to you as the registered owner/keeper of the above vehicle VIN in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act concerning NHTSA recall # 05V-571. Our records indicate that, because you have fitted a non-Lotus shifter assembly at your specific request, the original hexagonal gearshifter mechanism of your vehicle has **not** been modified to the specification required to complete this recall action.

To ensure that our warranty records are maintained as accurately as possible, this vehicle VIN will continue to display that this specific recall campaign is outstanding, but that the repair action has been declined by the owner/keeper as of the date displayed on this letter.

It should be made clear that until this recall action is carried out, Lotus Cars USA can no longer provide further assistance under the terms of the limited vehicle warranty for any issues that may arise as a direct result of either, 1) the fitment of a non-Lotus shifter lever assembly, or 2) if repair or adjustments are required on the original hexagonal gear shifter lever assembly.

Please note that it may no longer be possible to practicably carry out this recall action if modifications to the shifter housing assembly were required in connection with the non-Lotus authorized shifter assembly.

Please complete the declaration below to confirm that you decline the shifter recall remedy because of the fitment of a non-Lotus shifter and that you understand the above information. Return the completed page to Lotus Cars USA in the self addressed stamped envelope supplied. You may also wish to make a copy of this for your own records.

Yours sincerely

Andrew Plant
