Re: recall 05V-390 update  
Date: December 21st, 2006

2013-12-23 12:24:40

12/21/2006 10:00:00 AM

Dear Pat,

Enclosed please find my official recall update for Due December 31st, 2006.

The **colored** spreadsheet ledger is the main document I have been sending to you and I keep updated as to the progress of the trailers.

I hope this information is sufficient,

Thanks and have a nice Christmas holiday season!

Sincerely

Rick Norman  
EZ Loader Boat Trailers

Re: recall 05V-390 update  
Date: Dec 31st, 2006

Dear Pat,

Enclosed please find my official recall update for Due Sept 29th, 2006.

The **colored** spreadsheet ledger is the main document I have been sending to you and I keep updated as to the progress of the trailers. To date, of the 208 trailers affected by the recall, I have:

177 repaired

21 un-repaired and I am still working on, some of these are probably repaired but I have not received the documentation on. 16 repair kits were sent to dealers to repair the majority of these, but no documentation was ever returned to EZ Loader for verification of the repair.

1 is in Hawaii, the owner has moved with no forwarding address, I have tried every means I know to contact this person, with no luck.

1 is in Dillingham Alaska and the retail owner has not been found.

1 trailer listed on the sheet is a duplicate VIN number, in other words there are really 207 trailers affected, not 208

1 trailer has been seized by the Canadian Police and is not available to us. Still seized.

1 trailer is in Nigeria, and a kit has been sent for repair.

3 trailers are in Australia and kits were sent for repair.

2 trailers are on the Island of Yap in Malaysia and no way to contact owners.

I hope this information is sufficient,

Sincerely

Rick Norman
