Re: NHTSA Recall No. 05V-534

Dear Ms. Wallace:

Please accept this letter as a final update to Recall No. 05V-534.

We are pleased to report that we have completed the necessary repairs for this recall on the remaining two units. I have attached a revised spreadsheet that shows the repair date by VIN for all 38 units, which accounts for 100% of the affected units.

Having accounted for 100% of the units at issue in this recall, we assume that future reports, including NHTSA mandated quarterly reports, are unnecessary. Accordingly, we plan to close our file on this recall and assume that NHTSA will do the same unless we hear otherwise from you.

Please do not hesitate to contact me with any questions or concerns you might have.

Thank you very much for your assistance.

Sincerely,

Melanie S. Stone

Encl.
