

SAFETY RECALL NOTICE SECOND NOTICE

**REFERENCE: SAFETY RECALL A-0504
NHTSA SAFETY RECALL 05V-117**

August 2006

Dear Autocar Truck Owner:

We have previously delivered to you a safety recall notice relating to your Autocar Xpeditor. A copy of that notice is enclosed for your convenience.

Our records indicate that you have not responded to, or had a service inspection relating to this recall. This is a second notice to urge you to take action relating to the recall. The inspection and service is free to you and will provide assurance that your vehicle is operating safely in the manner it is intended. Failure to have your vehicle inspected pursuant to this recall could lead to liability to you, if in fact damage should occur as a result of your not having completed the inspection described in the recall. If you have completed the recall inspection yourself please be sure to return the enclosed envelope having marked the appropriate box for self-inspection of this matter.

Once again, there is no cost to your compliance with the recall request and we urge you to bring your vehicle in for inspection as soon as possible.

IMPORTANT

- **Your Autocar Xpeditor WX/WXR/WXLL chassis manufactured between February 2005 and March 2005 is involved in a safety recall because certain wheels manufactured by Accuride in its Erie, Pennsylvania plant during the period January 15, 2005 through January 17, 2005 were not properly pre-stressed before being shipped. Wheels that have not been properly pre-stressed could over time develop cracks in the wheel that, if allowed to propagate, could result in a wheel failure and possibly result in a vehicle crash**
- **Schedule an appointment with your Mfg dealer.**
- **This service will be performed for you at no charge.**

Sincerely
