### **SAFETY RECALL NOTIFICATION – C1000110 – Rear Engine Support NHTSA SAFETY RECALL – 05V-303**

#### **Vehicle Identification Number – VIN**

Dear Mitsubishi Fuso Truck Owner:

This is a follow up to notices you should have received dated September 26, 2005 and May 1, 2006 regarding this Safety Recall.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect which relates to motor vehicle safety exists in the rear engine support bracket. On affected vehicles, the rear engine support bracket is composed of materials of insufficient strength. Normal vehicle vibrations may cause the bracket to crack. If the vehicle is continually operated in this condition, the bracket may break apart. In the worst case, the automatic transmission (A/T) could drop out of alignment with the drive train, which could result in a crash without warning.
