## **FOLLOW-UP NOTIFICATION**

Dear Nissan Owner:

This second notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that some 2005 model year Nissan Maxima vehicles do not meet one of the requirements specified in Federal Motor Vehicle Safety Standard (FMVSS) No. 225, "Child Restraint Anchorage Systems."

### **Reason for Recall**

FMVSS 225 specifies certain requirements for child seat anchorage systems in vehicles. The lower anchorage brackets in the rear seats in some Maxima vehicles do not meet the location requirement in this standard. This may cause difficulty in attaching some child seats to these brackets. If a child seat is not secured, there is an increased risk of injury in a crash. All other requirements under FMVSS 225 and other standards are met.

### **What Nissan Will Do**

Your Nissan dealer will modify the lower anchorage brackets to ensure that the standard is met all at no cost to you.

### **What You Should Do**

If you have not done so already, we urge you to please contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer. If you have additional questions you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003.
