SAFETY RECALL NOTIFICATION – C1000210 – Turn Signal/Hazard Lamp Wiring Harness
NHTSA SAFETY RECALL – 05V-410

Vehicle Identification Number – VIN

Dear Mitsubishi Fuso Truck Owner:

This is a follow up to notices you should have received dated November 30, 2005 and May 3, 2006 regarding this Safety Recall.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect which relates to motor vehicle safety exists in the turn signal and hazard warning lamp harness. On affected vehicles, the door wiring harness interferes with the turn signal and hazard lamp wiring harness due to improper routing. Repeated opening and closing of the doors could damage the turn signal and hazard lamp wiring harness. In the worst case, if the wiring harness breaks, turn signal lamp and hazard lamp illumination would cease, and could cause a crash without warning.
