SAFETY RECALL NOTIFICATION – C1000210 – Turn Signal/Hazard Lamp Wiring Harness NHTSA SAFETY RECALL – 05V-410

Vehicle Identification Number – VIN

Dear Mitsubishi Fuso Truck Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This is a follow up to notices you should have received dated November 30, 2005 and May 3, 2006 regarding this Safety Recall.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect which relates to motor vehicle safety exists in the turn signal and hazard warning lamp harness. On affected vehicles, the door wiring harness interferes with the turn signal and hazard lamp wiring harness due to improper routing. Repeated opening and closing of the doors could damage the turn signal and hazard lamp wiring harness. In the worst case, if the wiring harness breaks, turn signal lamp and hazard lamp illumination would cease, and could cause a crash without warning.

The turn signal and hazard lamp wiring harness will be inspected for damage. Any damage found will be repaired. Then, protective sheathing will be installed around the wiring harness loom and a protective electrical cap will be installed on the wiring harness connector. The procedure will be completed at no cost to you when performed by an Authorized Dealer or Parts and Service Center. The scheduled time for repair is approximately 1 hour.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days. If you are the lessor of the above referenced vehicle, please forward this notification immediately.
