SUBJECT: SAFETY RECALL #905-C
BOSCH PARKING BRAKE ANCHOR BOLT
EXPIRATION DATE: NONE
VIN #

Dear Peterbilt Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This is a Follow-Up Notification to an earlier communication sent October 23, 2005

Peterbilt Motors Company has decided that a defect which relates to motor vehicle safety exists in certain Peterbilt Model 335 vehicles manufactured between August 12, 2004 and September 30, 2005 with a Bosch park brake. Your vehicle has been identified as being manufactured during this time frame with the possible defect.

Peterbilt was notified by Bosch that a defect may exist in some anchor bolt assemblies in its model 305 Parking Brake. Bosch discovered that a different coating was applied to the bolt which did not meet their specification. This could reduce the fatigue life of the bolt and lead to premature failure. Failure of the bolt could cause the truck to roll away while parked without prior warning, causing property damage and/or personal injury.

Peterbilt has initiated a recall to inspect and replace the bolts if necessary. Please contact your Peterbilt dealership immediately to have this condition corrected. This procedure should take no more than 2 hrs and will be performed at no charge to you. If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall.

If you require further information about this recall, reimbursement of a pre-notification remedy associated with this recall or experience any difficulty in making arrangements for the repair, please contact: Peterbilt Motors Company, 1700 Woodbrook Street, Denton, Texas 76205; Customer Service Department, phone 940-591-4196.

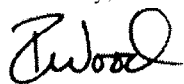

If you conclude that Peterbilt Motors Company has not enabled you to remedy this defect in reasonable time and without charge, you may submit a complaint to: Administration for Enforcement, National Highway Traffic Safety Administration, 400 Seventh Street SW, Washington DC 20590, or call the toll free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you no longer own this truck, we would appreciate your advising us of the new owner, if the name is known to you. The enclosed postage-paid envelope may be used for this purpose.

We regret any inconvenience this may cause you and appreciate your cooperation in this matter.

Sincerely,

Rick Wood
Quality Services Manager
