Washington, D.C. 20590

Re: Roush Performance Products, Inc., NHTSA Recall 06E-071

Dear Mr. Person:

The purpose of this letter is to supplement the Part 573 report filed by Roush Performance Products, Inc., on August 7, 2005 regarding a potential safety defect in Roush branded front struts sold in the aftermarket for installation on Model Year 2005, 2006, and 2007 Ford Mustang GT vehicles. Ms. Kelly Schuler of your office acknowledged this notification on August 11, 2006.

When Roush filed the Part 573 report in August, Roush's supplier, KW Automotive GmbH ("KW") had not yet developed a remedy. KW has now identified a remedy which is a newly manufactured front struts having a redesigned bracket with robust welding. Roush intends to offer to customers that purchased the aftermarket front struts two (2) replacement front struts manufactured by KW that have robust welding, at no charge. If a customer already replaced the front struts because of the defect, Roush will offer to reimburse the costs of such replacement in accordance with the enclosed Reimbursement plan.

Based on currently available information about parts availability, Roush expects to notify known customers during the week of September 18, 2005, and to notify distributors and dealers during the week of September 11, 2006.

In accordance with 49 CFR 573.6(c)(11), I am enclosing a copy of Roush's proposed owner notification letter for your review. In addition, pursuant to 49 CFR 577.5(a), I am submitting the envelope format that Roush intends to use in sending out these letters. Please advise me if the letter and envelope format are acceptable.

We appreciate this opportunity to cooperate with NHTSA.

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph Thompson".

Joseph Thompson
General Manager
