Subject: Revision to the Safety Recall 60601-C (06V-225) Initial Information Report

Pursuant to Part 573.6, the attached is a revision to the Initial Information Report, submitted on 6/23/2006.

The Report has been revised from the initial submission in the following manner:

- Inserted a new Item 3 – *FINAL STAGE MANUFACTURER*.
- Re-numbered old items 3 thru 10 to 4 thru 11.
- Modified old Item 9 (new Item 10) to clarify that WCC will be administering this campaign and reporting completion rates.

The undersigned should be contacted for any additional information regarding this recall on (765) 964-2364.

Very truly yours,

Dave Bigg

- The final stage manufacturer information is provided for reference only. WCC will be administering this campaign. See Item 10 below.

(4) *VEHICLE POPULATION INVOLVED [Part 573.6 (c)(3)]*

<i>Model</i>	<i>U.S. Quantity</i>	<i>Canada Quantity</i>	<i>Mexico Quantity</i>	<i>Export Quantity</i>
W22	22,207	854	1	31
W24	3,794	199	2	2
W18	567	13	0	1
P32	3,682	149	4	25
W52	234	70	0	0
FE20	1	0	0	0
Grand Totals	30,335	1,227	7	59

(5) *PERCENTAGE OF VEHICLES ESTIMATED TO CONTAIN DEFECT [Part 573.6 (c)(4)]*

- About ten percent (10%) of the vehicles in the suspect population are estimated to contain the defect.

(6) *DESCRIPTION OF DEFECT [Part 573.6 (c)(5)]*

- As a result of possible improper hardening during the heat treatment process, the fuel rail pulse damper retainer clip on these engines may fracture, resulting in inadequate retention of the damper. If the damper becomes loose, fuel could be pumped by the fuel pump into the under-hood area. In the presence of an ignition source, a fire could result.

A GVW Holdings Company

(7) *CHRONOLOGY OF PRINCIPAL EVENTS WHICH LED TO DETERMINATION OF A SAFETY DEFECT or TEST RESULTS THAT LED TO DETERMINATION OF NONCOMPLIANCE [Part 573.6 (c)(6)/(7)]*

- By letter dated June 5, 2006, WCC was advised by GM Powertrain that the above-referenced engines may contain a defective fuel rail pulse damper retainer clip. WCC undertook an immediate review of the matter and, on June 8, 2006, decided to conduct this voluntary safety recall. Subsequently, by letter dated August 15, 2006, WCC was advised by GM Powertrain that the population of engines that may contain a defective fuel rail pulse damper had increased to include MY 2005 and certain MY 2006 engines. WCC decided to include these additional vehicles in this existing recall 06V-225.

(8) *PROGRAM TO REMEDY DEFECT [Part 573.6 (c)(8)]*

- WCC will replace the fuel rail pulse damper retainer clips on all these engines free of charge.

(9) *PLAN FOR REIMBURSEMENT [Part 573.6 (c)(8)(i)]*

- None of the vehicles in this recall fall outside the warranty period; therefore, International Truck and Engines plan for reimbursement of pre-notification remedies, on file and dated 2/6/2005 does not apply and instructions will not be included in the customer notification.

(10) *SCHEDULE FOR RECALL NOTIFICATION [Part 573.6 (c)(8)(i)]*

- WCC will administer this campaign by mailing to vehicle owners, Workhorse dealers, and final stage manufacturers beginning no later than 9/15/2006.
- WCC will maintain all warranty records of this campaign and will provide the quarterly reports for all units to the NHTSA beginning 4th Quarter 2006.

A GVW Holdings Company

(11) *WORKHORSE RECALL NUMBER [Part 573.6 (c)(11)]*

- 60601-C (NHTSA number 06V225000)

The undersigned should be contacted for any additional information regarding this recall on (765) 964-2364.
