Subject: 06V-448 / adjusted total of recalled trailers
Importance: High

Pat,

Per our conversation, after review of our records we have found that we should have recalled a total of 5,671 trailers not 5,905 as were originally included. I have attached a copy of the follow-up letters sent out notifying those affected customers of the adjustment, if applicable. If you have any questions or need any additional information please let me know.

Thanks, Tom
