RE: Moon Roof Glass Panel - Quarantine Notice

To: Jaguar Dealer Principals / General Manager
Jaguar Service Managers

What is the Concern?

Jaguar Cars North America has informed the National Highway Traffic Safety Administration (NHTSA) and Transport Canada (TC) of its intent to perform a voluntary Safety Recall on **specific** 2006 MY XJ vehicles imported into the United States. The moon roof glass panel may have been incorrectly assembled by the supplier. This could result in the moon roof panel fracturing causing small pieces of glass to enter into the interior cabin, which could cause personal injury.

U.S. Federal regulations require that dealers must be advised of this Recall notification within three working days. Once notified, dealers must abide by the regulation that new vehicles in dealer inventory be HELD and not delivered to customers until they can be repaired as described in this communication.

Federal law requires dealers to complete any outstanding safety recall before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$5,000 per vehicle.

Dealers are also advised that the use of vehicles from the affected VIN list as demonstrators or loaner vehicles may be considered a violation of Federal legislation. Jaguar recommends against using affected vehicles for demonstrator or loaner purposes. Please consult your own legal counsel if you have questions in this regard.

This notice serves as notification to all Jaguar Dealers in the United States, Canada and

Mexico that affected vehicles may not be delivered for customer use until the repair is completed. A listing of the vehicles affected that are still shown to be in your inventory is attached below.

What Vehicles Are Affected?

<u>Model Year / Model</u>	<u>VIN Range</u>
2006 XJ	G49986 to G50786- (Specific Vehicles Only, Refer To Listing)
2006 XJ	H00001 to H05784 - (Specific Vehicles Only, Refer To Listing)

What action will be required?

You are required to quarantine all affected vehicles within your control that are identified on the list until a replacement moon roof glass panel can be fitted. **All other vehicles within the range not on the list can be retailed.** A limited number of parts are available in advance of the formal recall bulletin to allow you to begin repairing vehicles that have been sold awaiting customer delivery. Replacement parts can be ordered through normal channels; however, we require that the last 6 digits of the VIN and the Customer name be entered in the Customer Data Field of the VOR order. Dealers should enter an individual line for each part needed on a separate order. This will assist the warehouse in quickly processing the order and not delay delivery if other parts are included on the order. Any order incorrectly entered will be cancelled and NOT supplied. All orders will be manually released to ensure inventory control. Once adequate inventory is available, the parts block will be removed. It is anticipated that Recall bulletin and warranty claim information will be made available by early February.

Parts Information

C2C 31835 - Short Wheel Base - Moon Roof Glass Panel
C2C 31836 - Long Wheel Base - Moon Roof Glass Panel

How long will it take?

The repair process involves the replacement of the moon roof glass panel. All applicable service procedures are listed in GTR. The repair time will be approximately 15 minutes.

What will Jaguar do?

Vehicles that have already been retailed require no action on your part, as they will be the subject of a future communication.

Customer Inquiries?

If a customer has a question about this Recall but the customer has not yet received any formal notification, please advise them that Jaguar will notify them in writing if their vehicle is affected by this campaign. Customer notification is expected to take place before the end of February. If a customer requires additional information concerning this matter, please direct them to contact the Jaguar Customer Relationship Center at 1-800-4JAGUAR

Can a customer continue to drive their vehicle safely until the repair is completed?

Yes, however, Jaguar advises the customer to refrain from operating the moon roof until the recall is performed, and as a precaution, to close the shade that would prevent any of the small tempered glass particles from entering the passenger compartment in the event that the glass shatters because of a severe road impact.

We are sorry for any inconvenience this may cause.

If you have any questions, please contact the Jaguar HelpLine at 1-888-JAGDLRS.

Thank you for your support

Yours sincerely,

James Osborne
Technical Service & University Manager
