

Mack Trucks, Inc.

Safety Recall ALERT

Date: April 12, 2006 **Number:** SRA-414-001
To: All U.S. & Canadian Distributors
Attention: Service Manager, Warranty Manager, Parts Manager, Dealer Principal
From: Regulatory Affairs Department
Subject: Safety Recall, SC0310, CV713 POWER STEERING HOSE

Safety Recall Summary:

On certain Mack CV713 model vehicles, manufacturing installed an air system hose in place of the required high-pressure power steering hose between the main and slave steering gears. The air hose has a pressure rating well below that of the powering steering hose and therefore may be subject to rupture, which can result in loss of power assist.

The number of vehicles affected is approximately 309 (289 US and 20 Canada)

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act requires dealers to insure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer; therefore, whenever a vehicle subject to this recall is taken into or is in your vehicle inventory or dealership for service, we strongly recommend you make every effort to perform the recall correction before the vehicle is sold or released to the owner.

Release Schedule:

- Repair Instructions are posted on the Trucks Dealer Portal.
- Vehicle list is posted on the Trucks Dealer Portal.
- Owner Notices are scheduled to be mailed on April 28, 2006.

Questions:

Contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com if you have questions.
