

Mack Trucks, Inc.
Safety
Recall
ALERT

Date: August 2, 2006 **Number:** SRA-231-002
To: All U.S. & Canadian Distributors
Attention: Service Manager, Warranty Manager, Parts Manager, Dealer Principal
From: Regulatory Affairs Department
Subject: Safety Recall, SC0311, FUEL TANK CROSSOVER BRACKET

Safety Recall Summary:

On certain Mack CHN and CXN model vehicles, there exists the potential that the fuel tank crossover bracket may prematurely fail and unexpectedly fall to the road. The location and size of the bracket draws a concern to the bracket being picked up and thrown by the drive axle wheels.

The number of vehicles affected is approximately 460 (342 US and 118 Canada)

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act requires dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Repair Instructions are tentatively scheduled for release no later than August 8, 2006.
- Vehicle list is posted on the Trucks Dealer Portal.
- Owner Notices are scheduled to be mailed on August 18, 2006.

Questions:

Contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com if you have questions.
