Safety Recall Notification

To: All Jayco Dealers

Subject: Pre-Notification of Recall

This letter is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Jayco, Inc. has decided that a defect, which relates to motor vehicle safety, exists in specific 2007 Jayco Eagle Model 341RLQS and Designer 35CLQS, 34RLQS, 36RLTS, 38RDQS and 31RLTS fifth wheel trailers manufactured between April 13, 2006 and July 31, 2006. The 120-volt load center has a jumper wire of inadequate gauge that could overheat and cause a fire.

The final repair instructions should be available within the next 5-8 working days.

If you have one of these models in your inventory, NHTSA Federal Guidelines state: *“A dealer is prohibited from selling to the public any new motor vehicle or item of motor vehicle equipment, which might contain a safety, related defect, until the defect is remedied.”*

Thank you for your assistance.

Sincerely,

Jayco, Inc.
Technical Research Committee
