VEHICLE SAFETY NONCOMPLIANCE SERVICE BULLETIN

This notice is being sent to dealers in accordance with the National Highway Traffic Safety Administration, 49CFR part 573

Date: November 13, 2006

To: All U.S. Corbeil Dealers

Subject: Corbeil Safety Recall **W0076**, Vehicle Placard "Tire and Loading Information" requested by FMVSS 571.110

Models: Corbeil buses having a Gross Vehicle Weight Rating (GVWR) of 4536kg (10 000lbs) or less manufactured from September 2005 to September 2006 with the V.I.N. number shown on the attachment.

Reason for this recall:

This notice is sent to you in accordance with the requirements of the National Highway Traffic Safety Administration.

Les Entreprises Michel Corbeil Inc. has determined that buses having a GVWR of 10 000lbs or less, built from September 2005 to September 2006, fail to conform to Federal Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims for Motor Vehicles with a GVWR of 4536kg (10 000lbs) or Less*, section 4.3. That section states that the placard shall be permanently affixed to the driver's side B-Pillar or gives the choice of other locations if the B-Pillar do not permit the correct affixing of the said placard. Corbeil's placard located on the B-Pillar was not correctly affixed and therefore did not conform to the "permanently affixed" request of it. Furthermore, that section 4.3 stipulates that the placard shall have the following information: "The combined weight of occupants and cargo should never exceed XXX kilograms or XXX pounds". Corbeil's placard did not give the correct weight information. Finally, section 4.3 states that the vehicle placard shall show the cold tire pressure information in PSI. Corbeil's placard show the pressure in LBS instead of PSI.

Parts Replacement:

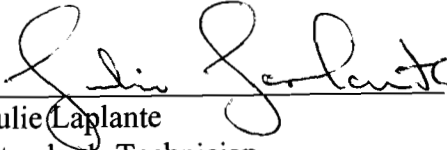

This recall involves the replacement of the vehicle placard "Tire and Loading Information" requested by FMVSS 571.110 by a corrected one. The new label will be supplied to Corbeil customers directly free of charge. You may find enclosed with this letter : a copy of the customer letter, a copy of the method to affix the new label that is send to customer with their letter and your list of buses involved in this recall.

Labor:

None.

We apologize for any inconvenience this may caused and appreciate your cooperation in this regard.

Sincerely,

Julie Laplante
Standards Technician
