Re: Recall 06T-014

Kelly Schuler
NHTSA Headquarters
1200 New Jersey Avenue, SE
West Building
Washington, DC 20590

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This letter supplements our letter to you dated July 1, 2008 and provides some additional information.

Foreign Tire Sales, Inc. ('FTS") has decided that all Danzig and Direction 10.00-20 bias ply (12 ply and 14 ply) container chassis tires that were not labeled correctly by the factory fail to conform to Federal Motor Vehicle Safety Standard No 119, "New Pneumatic Tires."

Noncompliance
This recall involves all such tires which do not bear the required maximum single load rating on the sidewall. An owner can overload the tire, possibly causing premature wear which could result in a vehicle crash if used in a single position.

FTS conducted a recall of certain "Direction" and "Danzig" branded tires starting in January 2007. In that recall, FTS identified certain DOT ranges of recalled tires. It has been determined that the population of affected tires is greater than FTS originally recalled. FTS is therefore re-opening the recall to include any affected tire which does not contain the required single load rating on the sidewall. Only tires with original tread are qualified for this recall.

Permanent Corrective Action

You may call FTS toll free at 800-634-8335 for direction to the closest branding location. Or you may contact the dealer where you purchased it. The dealer will advise you of the closest location to take the tire to have the sidewall branded with the applicable maximum single use load range. This action will neither effect the operation nor safety of the tire. You must present the tire within 60 days from your receipt of this letter.

If, prior to the receipt of our July 1, letter you incurred any expense to remedy the recall condition, you are entitled to reasonable reimbursement of such expense. Please contact us if you have incurred any such expense.

How Long Will it Take?

The time needed for this service is less than one half day per tire. Please make appropriate arrangements with your dealer.

If the dealer doesn't make the repair promptly and without charge, you may contact Foreign Tire Sales, Inc., at 1-800-634-8335. You also may send a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590 or call the toll free the Vehicle Safety Hotline 1-888-327-4236 (TTY: 1-800-424-9153); or go to http://www.safercar.gov.

We regret the inconvenience this service may cause you, but we want you to have the work done for your safety and satisfaction with your FTS imported tires.

Sincerely,

Richard Kuskin /BY
