### CUSTOMER SAFETY RECALL NOTICE

**Important Safety Notice: A601 Reply Card** – Model Year 2005 & 2006 Porsche 911 Carrera S (997) and 911 Carrera S Cabriolet vehicles

Dear Porsche Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Porsche AG, the manufacturer, has decided that a defect relating to motor vehicle safety exists in certain model year 2005 to 2006 911 Carrera S and 911 Carrera S Cabriolet vehicles.

Our records indicate that you are the Owner of a Porsche 911 Carrera S vehicle involved in this recall campaign. Exhaust tailpipes have been fitted to the rear muffler of your 911 Carrera S (997) that may feature insufficient weld seams between the fastening clamp and the tailpipe.

Insufficient weld seams are liable to fracture which results in the tailpipe making rattling noises during driving operation and can ultimately lead to a loss of the exhaust tailpipe. In order to prevent a possible danger to other road users, we need to replace both exhaust tailpipes on your vehicle.

Please note Federal Regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

You should arrange for an appointment with your Porsche dealer as soon as possible to have the required repair performed. The necessary tools to perform this recall will be available at the Porsche dealer of your choice. The parts required for this work will be available at your Porsche dealer. The estimated time to perform this recall campaign is approximately 40 minutes. Please allow yourself and your Porsche dealer additional time to complete the repair.

If your Porsche dealer is unable to perform this repair within a reasonable period of time, you may call or write:

Porsche Cars North America, Inc.
