VEHICLE SAFETY DEFECT SERVICE BULLETIN

NHTSA Recall Campaign # 06V-022

Unit Serial Number: «Serial»

Dear Jayco Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Jayco, Inc. has decided that a defect, which relates to motor vehicle safety, exists in specific model year 2003 – 2004 Jayco Eagle 14SO (FW) and 2005 Jay Series (BF) camping trailers manufactured between January 24th, 2003 and May 12th, 2005.

Jayco has become aware that the hydraulic brake line p-clamp was incorrectly installed. This may cause the metal brake line elbow between the brake hose and the backing plate to break while traveling down the road leading to the loss of braking capabilities. This condition, if not addressed, could result in accident, injury or death.

The remedy includes removing the brake hose p-clamps and replacing the metal brake line elbows. If you are unable to perform this repair, please contact Jayco Customer Service at 1-800-283-8267 for assistance.

This letter attached with a **“Claim Form”** will serve as an authorization to have the correction made. Please present the **“Claim Form”** to your dealer upon arrival of your service appointment. This will assist in making the necessary correction in the shortest possible time and allow the dealer the ability to mail in the form to Jayco to confirm the recall repair has been performed. If you have sold or traded your vehicle, or for any reason cannot have this recall service performed, please let us know by completing the information on the enclosed post card and returning it to us promptly. Federal regulations require that any vehicle lessor receiving this notice must forward a copy of this notice to the lessee within **ten days**.
