IMPORTANT RECALL INFORMATION #60123

February, 2006

Dear Valued Fleetwood Motor Home Customer:

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act.

Fleetwood Enterprises, Inc., on behalf of its subsidiary manufacturing centers located in Decatur, Indiana and Paxinos, Pennsylvania, has decided that certain 2006 model year Bounder Diesel, Discovery and Expedition motor homes fail to comply with the requirements of Part 567, "Certification".

WHAT IS THE PROBLEM?

Fleetwood Enterprises, Inc., has become aware of weight value input errors on certain documents. The Federal Certification Tag may be printed with the incorrect GVWR (Gross Vehicle Weight Rating) value of 31,000 pounds. The correct GVWR value is 28,000 pounds. The same weight error may occur on the Cargo Carrying Capacity Tag.

If the user loads the vehicle above 28,000 pounds, overloading results, which could damage your vehicle, adversely affecting vehicle performance including handling and braking, cause tire failure, and result in a crash.

WHAT WILL FLEETWOOD DO?

To correct this non-compliance, it is necessary to change certain front suspension components and certify the chassis for the 31,000 pounds GVWR value. Fleetwood will assist you in scheduling an appointment with Freightliner Custom Chassis Corporation (FCCC) to have the suspension components replaced.

WHAT SHOULD YOU DO?

Please contact Fleetwood Owner Relations at (800) 509-3418 for assistance in scheduling the necessary repairs for recall # 60123. You will be provided an authorization number during this call, which you will need to provide to the FCCC dealer when you deliver your coach for the suspension component replacement. Upon completion of the repair, please sign the ***FCCC Repair Order***.

In certain cases a corrected Federal Certification Label is required. FCCC will notify Fleetwood Owner Relations once the suspension components are installed. Upon notification by FCCC, Fleetwood will send you any necessary Federal Certification Label(s). Please deface the original label(s) (with something such as a permanent marker) and place the new label(s) over your current Federal Certification Label(s) located on the wall to the left of the driver's seat.

If you do not feel comfortable installing the label(s) yourself, you may take them to any Fleetwood dealer and they will install them for you at no charge.

Upon completion of the repair and the installation of the updated certification label(s), please fill out the enclosed, self-addressed **Vehicle Information Update Card** and return it to Fleetwood.

If you have changed your address or sold the motor home, please take a moment to provide the name and address of the person or dealership you sold it to on the enclosed **Vehicle Information Update Card** and return it to Fleetwood. This will allow us to update our records, and if necessary, notify the new owner using the information you provide.

If you have had this concern corrected previously, you may be eligible for reimbursement of your cost for that repair. For more information regarding this recall #60123, contact Fleetwood Owner Relations at 800-509-3418.

For leased vehicles: Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you are unable to obtain the specified repair promptly and without charge, please contact:
