Notice: East Manufacturing Corporation Trailer Recall

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act

I M T has determined that the referenced trailer above does not conform to Federal Motor Vehicle Safety Standard No. 121, "F24 Spindles" due to potential breaking of the axle spindle on the large bearing, causing a loss of the wheel end.

WHAT NEEDS TO BE DONE:

1. Pull the wheel and drum assemblies off both sides of the axle.
2. Look for a heat code approximately 5" from the threaded end of the spindle.
3. If the heat code is "U07", please notify I M T immediately as further test will be required.

We have narrowed it down to only two dealerships that are primarily effected by this recall. The owner of the affected trailer needs to arrange the repair of the spindle. East Manufacturing Corporation will, at no charge to you, absorb the cost of the correction. The owners may contact the nearest or most convenient East Dealer or Authorized Service Center and arrange the work completed or may perform it themselves.

If you conclude that East Manufacturing Corporation has not enabled you to remedy this condition without charge or in reasonable time, you may submit a complaint to:

Administrator – National Highway Traffic Safety Administration
400 Seventh Street SW
Washington, DC 20590

You may also call the toll free Auto Safety Hotline at 1-800-424-9393

We regret any inconvenience that this situation may cause, but assure you that East Manufacturing Corporation's concern is for continued customer safety and satisfaction with our products. Should you have any questions regarding this notification, please contact us at:
