

Dear Isuzu *i*-Series Pick Up Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle safety Act.

The manufacturer General Motors has decided that a defect that relates to motor vehicle safety exists in certain 2006 *i*-280 and *i*-350 Isuzu vehicles. As a result, Isuzu Motors America, Inc. is conducting a safety recall. We apologize for this inconvenience. However, we have taken this action for your safety and continued satisfaction with our products.

WHAT IS THE CONDITION

The brake lamp switch may not work as designed. The performance of the brakes is not affected. However, this condition could cause the simultaneous loss of all brake lamps or cause all of the brake lamps to stay on continuously. Both of these conditions could fail to warn others of the driver's intentions and could lead to a vehicle crash. Also, if your vehicle is equipped with cruise control, it would become inoperative.

IMPORTANT

- Your vehicle is involved in a safety campaign.
- You need to schedule an appointment with your local Isuzu Dealer as soon as possible.
- This service will be performed for you at **no charge**.
