

MOTOR VEHICLE RECALL

Dear 2007 Entourage Limited Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Hyundai has decided that a defect, which relates to motor vehicle safety, exists in certain model year 2007 Hyundai Entourage Limited vehicles that were produced during the period beginning February 20, 2006 through May 17, 2006 and equipped with optional power adjustable brake pedals.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

What is the problem?

- The stop lamp switch wiring harness in model year 2007 Hyundai Entourage Limited vehicles equipped with power adjustable brake pedals may not be properly positioned. It is possible for an improperly positioned stop lamp switch wiring harness to make contact with the universal joint assembly of the steering column. Repeated contact may eventually cause the wiring harness insulation to wear through, leading to chafed wires. Chafed wires could cause a short circuit of the wiring harness resulting in inoperative brake lights. Inoperative brake lights may lead to a crash.

What will Hyundai do?

- To ensure that your vehicle's stop lamp switch wiring harness does not make contact with the universal joint assembly of the steering column, we are asking you to schedule an appointment as soon as possible to take your vehicle to your Hyundai dealer. The Hyundai dealer will inspect the stop lamp switch wiring harness in the area of the steering column for chafing and, if necessary, will repair the harness. In addition, the dealer will reposition, if necessary, and secure the wiring harness to prevent contact with the universal joint assembly. This procedure will be performed at no charge to you. You should plan to leave your vehicle at your Hyundai dealer to have this service performed. Repair times will vary and depend on your dealer's appointment schedule.

What should you do?

- We urge you to call your Hyundai dealer to schedule an appointment to have this work performed as soon as possible.

What if you have other questions?

- If you have any difficulty having this repair performed, we recommend that you call the Hyundai Customer Assistance Center at 1-800-633-5151. If you are still not satisfied that we have remedied this situation without charge, and within a reasonable amount of time, you may wish to write to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S. W., Washington, D.C. 20590, or call their toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

We urge your prompt attention to this important safety matter.
