U.S. BUS CORPORATION SAFETY RECALL NUMBER 06V-416

Dear Valued U.S. Bus Corporation Customer:

This notice is being sent to you in accordance with the National traffic and Motor Vehicle Safety Act.

U.S. Bus Corporation has decided that certain U.S. Bus school buses fail to conform to Federal Motor Vehicle Safety Standard No. 111, "*Rearview Mirrors*". Specifically, this noncompliance was caused by the inadvertent obscuring of a label as required in the standard. This label addresses the use of the front cross-viewing mirrors, and what should and should not be viewed through these mirrors. It is possible that we inadvertently obscured this label while installing the interior rearview mirror.

The consequence of this issue is that an untrained driver may use the cross-viewing mirrors improperly, and attempt to view rearward down the sides of the bus using these mirrors which could result in personal injury or even death to persons outside the bus. The label provides proper instructions as to what should be viewed.

The remedy for this recall is to simply affix the enclosed label to the vehicle dash to the right of the instrument cluster, as shown in the enclosed photograph, so that it is in clear view of the seated driver. If you do not wish to affix the label yourself, you may contact us and we will make arrangements for you to take your bus(es) to an authorized dealer for repair without cost to you.

If you are the lessor of the above-mentioned vehicle, you must forward this letter to the lessee within ten (10) days of receipt of this letter.
