Recall Campaign No. 06V426000

Monaco File # R06025

Re: Safety Recall – Steering Nut and Bolt

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that a defect which relates to motor vehicle safety exists in certain Class A motorhomes manufactured from January 3, 2005 through February 8, 2005. The affected vehicles are certain Beaver 2005 Monterey, 2006 Patriot and 2006 Marquis.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

Monaco Coach Corporation became aware of a defect with respect to the nut and bolt combination used on specific Beaver 2005 Monterey, 2006 Patriot and 2006 Marquis Class A Motorhomes. The defect relates to the nut and bolt combination that is used to clamp the intermediate shaft onto the steering shaft. Without the proper nut and bolt combination, the nut can loosen prematurely and allow the bolt to come out which would allow the intermediate shaft to become disconnected from the steering column shaft. If this would occur, it can cause you to lose the ability to control your vehicle, which could result in a crash. As a precautionary measure, Monaco Coach Corporation has elected to perform this voluntary safety recall campaign.

The remedy will involve inspection of the nut and bolt combination on your vehicle. If the improper combination is installed on your vehicle, your dealer will replace with a new nut and bolt supplied by Monaco. If the combination is correct, your dealer will re-torque the existing combination. The recall repair will be performed at no cost to you. If you had the defect, which is the subject of this letter, remedied prior to receiving this letter, you may be eligible for reimbursement by Monaco Coach Corporation for your remedy costs.

You may contact your Monaco Coach Corporation dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available.

The labor time necessary to perform this recall campaign is approximately 0.5 hours. Please ask your dealer if you wish to know how much additional time may be needed to schedule and process your motorhome.

The enclosed Recall Notification Form identifies your motorhome and will serve as an authorization and claim form to have the correction made. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you have sold or traded your vehicle, or for any reason cannot have this recall service performed, please let us know by completing the postage paid reply card and returning it to us promptly.

Your Monaco Coach Corporation dealer is best equipped to provide service to ensure your motorhome is corrected as promptly as possible. If, however, you take your unit to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call our toll free recall hotline at (800) 685-6545 or our toll free number for Technical Service at (877) 466-6226..

If, after contacting your dealer, and the recall assistance service line, you believe Monaco Coach Corporation has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY:1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you. However, we have taken this action in the interest of your safety and continued satisfaction with your Monaco Coach Corporation Beaver Motorhome.

Sincerely,
