VEHICLE SAFETY DEFECT SERVICE BULLETIN

Recall Campaign No. 06V450000

Monaco File # R06033

Re: Safety Recall – Windshield Wiper Circuit

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that a defect which relates to motor vehicle safety exists in certain Class A motorhomes manufactured from May 1, 2006 to June 28, 2006. The affected vehicles are certain 2007 Monaco Signature, Executive and Dynasty, Holiday Rambler Imperial, and Beaver Patriot and Marquis.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

Monaco Coach Corporation manufacturing plant 10 in Coburg, Oregon began installing new windshield wiper motors on certain motorhomes in May of 2006. The original assembly was under fused and the fuse may fail. If the fuse fails, the windshield wipers will stop functioning which would result in a decrease of the visibility of the operator and could result in a crash. The fuse would most likely fail when there is too much resistance put on the windshield wipers such as when the windshield is starting to dry off. As a precautionary measure, Monaco Coach Corporation has elected to perform this voluntary safety recall campaign.

The remedy will involve the installation of a new 15amp auto resetting circuit breaker fuse on the vehicle. The installation procedure is not difficult and can be installed by you, the owner. If you choose to install the new 15amp auto resetting circuit breaker fuse yourself, we have included the fuse with this letter. A copy of the instructions has been included in this letter so you may evaluate the procedure. If you decide after reviewing the installation instructions you are not comfortable installing the fuse yourself, please contact an authorized servicing dealer to schedule an appointment to have the recall performed at no charge. If you had the defect, which is the subject of this letter, remedied prior to receiving this letter, you may be eligible for reimbursement by Monaco Coach Corporation for your remedy costs.

You may contact your Monaco Coach Corporation dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available.

The labor time necessary to perform this recall campaign is approximately 0.5 hours. Please ask your dealer if you wish to know how much additional time may be needed to schedule and process your motorhome.

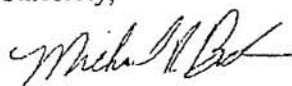

The enclosed Recall Notification Form identifies your motorhome and will serve as an authorization and claim form to have the correction made. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you have completed the work yourself or sold or traded your vehicle, or for any reason cannot have this recall service performed, please let us know by completing the postage paid reply card and returning it to us promptly.

Your Monaco Coach Corporation dealer is best equipped to provide service to ensure your motorhome is corrected as promptly as possible. If, however, you take your unit to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call our toll free recall hotline at (800) 685-6545 or our toll free number for Technical Service at (877) 466-6226.

If, after contacting your dealer, and the recall assistance service line, you believe Monaco Coach Corporation has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY:1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you. However, we have taken this action in the interest of your safety and continued satisfaction with your Monaco Coach Corporation Beaver Motorhome.

Sincerely,

Michael R. Becker
Customer Service Manager

Recall Repair Procedures

Products:  **Marquis, Patriot**

Imperial

Signature, Executive, Dynasty

RECALL 06V450000

CANADA # 06-318

WINDSHIELD WIPER FUSE UPGRADE

Purpose of recall:

Under certain driving conditions, specifically when the windshield is drying off, the increased resistance on the wiper motor may cause the 15 AMP fuse to fail resulting in the loss of windshield wiper function. As a result the installation of a 15 AMP auto-reset fuse in place of the standard 15 AMP fuse will be necessary.

Read these instructions carefully and become thoroughly familiar with the procedures before beginning repairs. Park unit on a flat, level surface. Place transmission in Neutral, set the park brake and turn engine off

Replacement Procedures:

1. Locate front electrical run panel in front of the driver side front tire
2. Locate the 15 AMP windshield wiper fuse on the printed circuit board (figure 1).
3. Replace the standard 15 AMP blade style fuse with the 15 AMP auto-reset fuse.

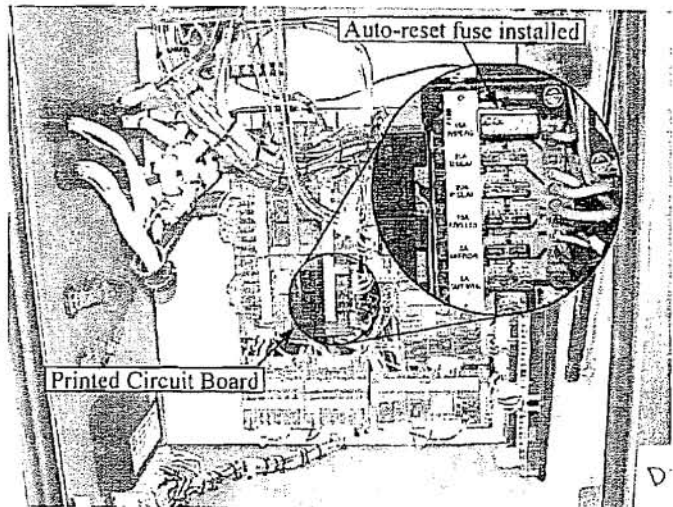

figure 1

Part: Order Kit # 06V450000
06-318

Kit contains: 1- 15 AMP auto-reset fuse.

Warranty: Submit a warranty claim form for each unit repaired and use the following labor time and code.

Labor Operation Code: US - Intergy - 22810256RC • E1 - 228102RC
CAN - Intergy - 22820256RC • E1 - 228202RC
